Location: Katargam, Surat 395004

PROFESSIONAL SUMMARY

A proactive and resourceful Full Stack Developer with experience in developing innovative and scalable web applications. Proficient in the MERN/MEAN stack (MongoDB, Express, React/Angular, Node.js) and dedicated to writing clean, maintainable, and high-performance code. Demonstrated ability to quickly master new technologies and resolve complex system issues to deliver robust, user-centric solutions.

CORE TECHNICAL SKILLS

Frontend	ReactJs, Angular, JavaScript (ES6+), HTML5, CSS3, Bootstrap
Backend	NodeJs, ExpressJs
Database	MongoDB, MySQL, Mongoose
Tools/Other	RESTful APIs, Git, Postman, API Integration

WORK EXPERIENCE

Full Stack Developer (Current) - Vasundhara Infotech | March 2025 – Present

- Develop and deploy scalable full-stack applications using the MERN stack, contributing to both UI/UX and server-side architecture.
- Engineered and integrated robust RESTful APIs for high-speed, seamless data exchange across client and server environments.
- Managed data persistence, optimizing complex queries in MongoDB/MySQL to ensure high-performance data retrieval and system stability.
- Enforced code quality and team efficiency through Git-based version control and agile collaboration with cross-functional product teams.

Front-End Developer - Plexoc Solution, Ahmedabad | August 2023 – November 2023

- Developed responsive and interactive web applications using modern JavaScript frameworks, resulting in an enhanced user experience.
- Refactored and optimized existing HTML, CSS, and JavaScript codebase, significantly improving application performance and long-term maintainability.
- Successfully consumed and integrated external RESTful APIs to facilitate critical data operations and dynamic content loading.
- Spearheaded the development of reusable UI components (e.g., in React or Angular) to streamline development and ensure design consistency across projects.

PROJECTS

Hospital Management System (MERN Stack)

- Developed a comprehensive system to streamline patient management, appointments, billing, and staff operations.
 - Implemented secure authentication and role-based access control (RBAC) using Node.js/Express.js and JWT.
- Technology: NodeJs, ExpressJs, MongoDB, ReactJs*

E-Commerce Website

- Built a customer-facing e-commerce platform focused on product showcase, dynamic filtering, and browsing interface.
 - Utilized JavaScript to implement client-side validation.
- Technology: HTML, CSS, JavaScript*

EDUCATION

- Bachelor of Technology (B-Tech) in Information Technology** - Silver Oak University | 2021 – Present
- 12th Board** - Matrubhumi Vidhyabhavan | 2020 – 2021 | Percentage: 75%
- 10th Board** - Matrubhumi Vidhyabhavan | 2018 – 2019 | Percentage: 79%
